Individual Team Effort Report

PHYS 201L | Submit privately through the LMS with each team notebook

Purpose: Describe contributions candidly and specifically. This report is private. It may be used with instructor observations to adjust an individual grade when participation differs materially from the team's submitted work.

Your name:	Team name:	Experiment number and title:
Alivia Teri	LTH	Lab 4: Air Track II: Newton's Second Law
First lab date:	**Second lab date:**	**Submission date:**
10/5/26	10/19/26	10/19/26

Contribution areas

Check every area in which you made a substantive contribution:

☒ Planning / physical model	☒ Apparatus setup / safety	☐ Calibration / troubleshooting
☒ Data collection	☐ Data-quality checks	☐ Coding / calculations
☐ Uncertainty analysis	☐ Tables / figures	☐ Writing / editing / GitHub save

Team effort estimate

List every team member, including yourself. Percentages must total 100%. Describe observable work rather than personality or effort alone.

Team member	Estimated share	Specific contributions to this experiment
Lucas Tyree-Herman	25 %	Worked with coding and calculations, as well as tables and figures
Aston French	25 %	Helped with writing, editing, and uncertainty analysis
Josh Bonta-Reaves	25 %	Helped with apparatus setup, data collection, and calibration
Alivia Teri	25	Helped with apparatus setup, data collection, and physical model
TOTAL	**100%**	

Your contribution

Describe the most important work you personally completed. Identify specific measurements, calculations, code, figures, or writing.

I personally contributed the most with ensuring the setup was correct, specifically on the second day of the lab. This was done by ensuring the apparatus was level, and consistent with what we learned from previous errors.

Describe one decision, problem, or check in which your contribution improved the team's result.

I made sure to check in by reminding the team of what we learned last time about leveling the track.

Team functioning and certification

If participation was substantially uneven, or if the instructor should know about a team problem, explain briefly. Otherwise write 'No concerns.'

No concerns.

Certification: I have reported contributions honestly and understand that this form is an individual academic submission.
