Individual Team Effort Report

PHYS 201L | Submit privately through the LMS with each team notebook

Purpose: Describe contributions candidly and specifically. This report is private. It may be used with instructor observations to adjust an individual grade when participation differs materially from the team's submitted work.		
Your name: Kaylin Church	**Team name: Gurl_P0wer**	**Experiment number and title: Lab04_Air Track II: Newton's Second Law**
First lab date: 10/05/26	**Second lab date: 10/19/26**	**Submission date: 10/19/26**

Contribution areas

Check every area in which you made a substantive contribution:

☐ Planning / physical model	☐ Apparatus setup / safety	☐ Calibration / troubleshooting
☐ Data collection	☐ Data-quality checks	☐ Coding / calculations
☐ Uncertainty analysis	☐ Tables / figures	☐ Writing / editing / GitHub save

Team effort estimate

List every team member, including yourself. Percentages must total 100%. Describe observable work rather than personality or effort alone.

Team member	Estimated share	Specific contributions to this experiment
Christina McDonald	33%	Helped to level the track, measures the width/ height of "flag," pushed cart on track, read off values, measured mass of the different weights
Lucianna Petrakos	33%	Helped to level the track, put the string back on when it fell off, reassembled string after each trial, pushed cart on track, caught string before it hit the ground
Kaylin Church	34%	Helped to level the track, put weight string on track, measured mass of each different weight, reassembled string after each trial, entered in and transferred information into github
TOTAL	**100%**	

Your contribution

Describe the most important work you personally completed. Identify specific measurements, calculations, code, figures, or writing.

I recorded all the data for the second part of the lab and was in charge of collecting it and uploading it onto google colab.

Describe one decision, problem, or check in which your contribution improved the team's result.

I realized a problem in our data and had us redo the trial so the data would be accurately reflected.

Team functioning and certification

If participation was substantially uneven, or if the instructor should know about a team problem, explain briefly. Otherwise write ‘No concerns.’

No concerns

Certification: I have reported contributions honestly and understand that this form is an individual academic submission.
